## Financial Reality Check

# Revenue Strength Meets Margin Crisis

The quarter showed robust top-line momentum, but the alarmingly low 4.8% GPM signals a fundamental cost-price misalignment. This critical inefficiency demands immediate action to prevent further margin erosion.

Category Deep Dive

# Food & Beverages Lead the Profit Charge

This category proves that scale and margin can coexist. It is the clear market leader, driving the highest revenue and profit, showcasing a successful model of turn velocity, supplier terms, and basket attachment .

# Silent GPM Killers: Sports & Electronics

These categories generate attractive revenue but suffer from poor margins, acting as a significant drag on overall profitability. They require immediate repricing or range rationalization.

# Untapped Potential: Health & Beauty

Currently the lowest-performing category, Health & Beauty represents a significant opportunity for growth rather than a terminal decline. It is ripe for targeted promotional strategies and cross-merchandising.

## Strategic Actions:

- Cross-merchandising with Food & Beverages
- Targeted promotions to drive trial
- Introduce exclusive brands to build authority

05

Satisfaction Gap

# Seven Out of Ten Is Not Enough

The average rating of 7/10 is propped up by a large number of 'passively satisfied' customers. The strategic goal is to convert these neutral shoppers (rating 6-7) into loyal promoters (8-10).

# Turnaround Blueprint

# Rescue Margin: A 30-Day COGS Reset

An immediate, line-by-line audit is required to address the critical 4.8% GPM. The goal is to achieve an interim GPM uplift to 8% through strategic supplier negotiations and precise price adjustments.

## Key Actions:

- Renegotiate supplier terms & volume-tiered contracts
- Implement dynamic pricing on key SKUs
- Protect price perception while improving margins

Current GPM  
**4.8%**

Target GPM (Q2)  
**8.0%**

## Elevate Health & Beauty via Cross-Sell

Transform the weakest category into an incremental engine by attaching it to high-frequency food purchases through bundled deals and strategic placement.

Goal: +25% Category Velocity

Tactic: Margin-neutral bundles with Food & Beverages

Placement: High-traffic end-caps & near checkouts

# Close the Satisfaction Gap

Implement a closed-loop feedback system for customers who rate a 6 or 7. This allows for swift identification of pain points and rapid service recovery to convert neutral shoppers into promoters.
